We are pleased to provide the following information concerning the absence or presence of certain substances in the ExxonMobil Chemical product(s) referenced above:

Phthalates and adipates are not intentionally used by ExxonMobil in this product. Although this product is not routinely tested for their presence, based on product composition knowledge these substances are not expected to be present. However, the fact that these substances are not intentionally used by ExxonMobil in this product does not exclude that trace levels of these substances may be present as a result of the specific characteristics of the raw materials and/or of the manufacturing process.

VALIDITY DATE: This document is valid for a maximum of one year as of the date of issue of the statement.
